

ALL-PURPOSE NIPPLE OINTMENT by Stokes

(mupirocin, betamethasone, miconazole)

- Promotes healing, relieves sore nipples and prevents infection
- Prescribed by doctors to assist nursing mothers

STOKES USES A PROPRIETARY
FORMULA TO HELP NURSING
MOTHERS.

"It seems to help for many causes of sore nipples, including poor latch, Candida (yeast), dermatologic conditions, infections of the nipple with bacteria and possibly other causes as well."

--Dr. Jack Newman
Founder, Newman Breastfeeding Clinic and Institute

Stokes Pharmacy is a compounding pharmacy that has been working with doctors and patients for over 30 years. We continue sharing information with physicians and patients in hopes of promoting healthy living. There is one product we compound which has been around for many years and appears to benefit almost every patient who uses it. That product is known as All-Purpose Nipple Ointment. It is one of the most popular nipple-healing and infection preventing recipes we have ever seen.

ALL-PURPOSE NIPPLE OINTMENT by Stokes

Directions: apply nipple ointment sparingly after each feeding. Do not wash off.
30 gm
